

PROPERTY GREEN ENERGY TRANSITION

Supporting the renewable green energy transition in the United States

Founded in 2011, PERse is a Managing General Underwriter (MGU) specializing in property and casualty insurance solutions for renewable energy projects. With over 100 years of collective insurance experience, the firm is deeply embedded in the renewable energy space, underwriting complex risks across wind, solar, biofuel, hydro, battery energy storage, and hydrogen sectors. PERse is advancing its strategic commitment to support the **Green Energy Transition** across the United States for our broker clients and their small-middle enterprise (SME) green energy insureds. This initiative supports our mission to accelerate the global energy transition by delivering innovative, data-driven insurance solutions tailored to the evolving risks of green energy infrastructure.
